PRODUCT DESCRIPTION

Key features

- Soft vertical lift action to enable safe, easy movement and transfer out of the chair.
- Quad motor allowing for fully independent headrest, lumbar, backrest and footrest adjustments.
- 2-year warranty on all electrical components and 5-year structural warranty (See specifications for more information).
- Highest quality multi-layered foam for ultimate comfort and durability.
- Backup power supply for peace of mind.
- Hand control with unique home button bringing the chair back to its neutral position in one operation.
- USB port on the hand control to charge your electrical devices.

Material

Soft Touch Fabric – This scratch resistant material is breathable, warming and soft for comfort.
Genuine Leather – This natural material has hypo-allergenic properties. It is durable, breathable, easy to maintain and attractive.
Oxford Plush Leather – With all the benefits of Genuine Leather, this Italian leather is made with high quality hides producing a softer finish for increased comfort.

Single vs twin vs quad motor lift chairs – what's the difference?

All ILS lift chairs have a lifting action, to support the user to stand from a seated position.

- Single motor chairs move the back rest and leg rest at the same time.
- Twin motor chairs allow the backrest and leg rest to move independently of each other, typically allowing for a greater degree of leg elevation and greater degree of recline compared to a standard single motor chair.
- Quad motor chairs allow independent movement of headrest, lumbar, backrest and footrest allowing for the greatest level of re-positioning of all chairs.

ADDITIONAL INFORMATION
