## PRODUCT DESCRIPTION

The Homecraft Lightweight Foam Standard Cutlery includes stainless steel utensils fitted into soft closed-cell foam handles to support those with limited hand strength or coordination challenges. Each handle measures 11.5 cm long and 2.8 cm in diameter, offering a lightweight, comfortable grip. The range includes a knife, fork, spoon and teaspoon, available individually or as a set. While not dishwasher safe, the utensils are easy to clean by hand.

### Who it's for

- For clients with arthritis, reduced grip strength or upper limb coordination difficulties.
- For therapists assisting clients to maintain independence and confidence during meals.

### Key features

- **Soft foam handles** – provide a secure, comfortable grip for easier holding
- **Standard utensil heads** – suitable for everyday mealtime tasks
- **Lightweight design** – reduces fatigue and improves control
- **Stainless steel construction** – ensures durability for regular use
- **Hand-washable** – easy to maintain hygiene
