PRODUCT DESCRIPTION

The Days Tri Walker is a compact, three-wheeled mobility aid designed for individuals who need light walking support and a high level of manoeuvrability. Its narrow frame allows easy steering in tight spaces, making it suitable for use at home or while out and about.

The walker features height-adjustable handles to promote an ergonomic walking posture and loop-style brakes for added safety and control.

Its lightweight aluminium frame folds easily for transport or storage.

A convenient storage bag is included, for carrying personal items securely during errands or daily activities.

Who it's for

- For clients with mild balance concerns who benefit from light, manoeuvrable walking support.
- For therapists prescribing a compact mobility aid with functional features and enhanced turning capability.

Key features

- **Three-wheel frame** – allows nimble movement and tighter turning radius
- **Folding aluminium design** – lightweight and simple to store or carry
- **Height-adjustable handles** – supports safe, ergonomic posture during walking
- **Loop handbrakes** – provide control and enhance safety
- **Storage bag included** – helps carry small items while walking
