PRODUCT DESCRIPTION

The Care Quip Euro High Back Day Chair is designed for people who need supportive, customisable seating throughout the day. This orthopaedic chair includes both adjustable seat height and depth to help achieve correct posture and accommodate a range of body types.

Its high contoured backrest delivers lumbar support, while the padded armrests provide comfort and aid during standing or transfers.

Built with a reinforced steel frame, the Euro High Back Day Chair supports individuals up to 200 kg.

The durable vinyl upholstery is easy to clean and suitable for both home and clinical settings.

Who it's for

- For clients who need customisable, orthopaedic seating for long-term use and support.
- For therapists wanting a strong, ergonomic chair with adjustability to meet clinical needs.

Key features

- **Adjustable seat height and depth** – for personalised comfort and support
- **Contoured high backrest** – offers targeted lumbar support
- **Reinforced steel frame** – supports those up to 200 kg
- **Padded armrests** – assist with standing and lateral transfers
- **Durable vinyl upholstery** – easy to clean and maintain in various environments
