PRODUCT DESCRIPTION

The BC2 Super Kingsize Bariatric Day Chair delivers enhanced seating support for bariatric clients who require greater width, strength and seated comfort.

It features a fully welded, powder-coated tubular steel frame with a weight capacity of up to 300 kg, making it ideal for long-term use in high-demand care environments. The Super King model offers an extra-wide 74 cm seat and segmented backrest design to promote pressure relief and postural support.

The seat height can be adjusted between 41 cm - 56 cm to suit individual needs and support safer, more ergonomic transfers. The padded seat and back cushions are upholstered in easy-to-clean vinyl and available in blue or latte colour options.

Designed for both comfort and durability, it's well suited to aged care, hospital, rehabilitation and home use.

Who it's for

- For clients who require extra-wide, high-capacity seating with ergonomic comfort and support.
 - For therapists seeking an adjustable, bariatric day chair for their client.

Key features

- **Extra-wide 74 cm seat** – supports larger clients requiring more space and comfort
- **300 kg weight capacity** – heavy-duty construction for high-care bariatric needs
- **Fully welded powder-coated steel frame** – ensures long-term strength and stability
- **Segmented padded backrest and seat** – improves pressure relief and comfort
- **Height-adjustable legs** – allows tailored seat height for safe and supported transfers
 - **Vinyl upholstery** – available in blue or latte and easy to wipe clean
