PRODUCT DESCRIPTION

The I-Care IC222 Homecare Bed is a durable, three-function electric bed designed for those needing moderate support in a home environment.

It features essential adjustments including head lift, knee break and overall height control, operated via a backlit, wipeable hand control. The IC222 also includes a rechargeable battery backup to ensure short-term functionality during power outages.

Built with a breathable mesh mattress platform and finished in commercial-grade fabric, the bed supports long-term hygiene and comfort. Four swivel castors provide easy manoeuvrability and can be securely locked during use.

The IC222 is compatible with all I-Care accessories and attachments, offering flexibility for individual needs.

Who it's for

- For clients who need moderate positioning adjustments for in-home care.
- For therapists wanting a moderate clinical positioning for their client.

Key Features

- **Three-function electric adjustment** – backrest, knee break and height adjustment for comfort and care
- **Rechargeable battery backup** – ensures short-term operation during power outages
- **Backlit wipeable hand control** – easy to operate in low light
- **Four heavy-duty lockable swivel castors** – for secure positioning
- **Breathable mattress platform** – supports airflow and comfort
- **Commercial-grade fabric** – durable and easy to maintain
- **Mattress retainer bars** – helps keep mattress in place securely
