PRODUCT DESCRIPTION

The Invacare Ultra Heavy-Duty scooter boasts a robust design that can handle a weight capacity of up to 220kg. The scooter is equipped with full suspension, which provides a smooth ride and increased comfort, even on bumpy surfaces. The special contoured 'ultra-seat' has been developed in conjunction with therapists to ensure an optimum, ergonomic seating position and increased comfort. Multiple adjustments to the seat and steering column to suit user needs and desired comfort.

Key Features

- **Weight capacity:** The Invacare Comet Ultra scooter has a weight capacity of up to 220kg
- **Safety:** The scooter comes with various safety features, including a headlight, taillight, and turn signals, ensuring that users remain visible and safe when traveling
- **Powerful motor:** The Comet Ultra scooter has a powerful motor that can reach speeds of up to 10Km/h and a maximum driving distance of 49Km
- **Comfortable seat:** The scooter features a comfortable and ergonomic seat that can be adjusted for height, depth, and angle, ensuring optimal comfort and support for the user.
- **Adjustable Steering Column:** The scooter's steering column/controls can be adjusted to accommodate different arm lengths and positions, ensuring comfortable and easy steering.
- **Large wheels:** The Comet Ultra scooter features large, air-filled tires that provide enhanced traction and stability on different terrains, making it suitable for both indoor and outdoor use.
- **Durability:** The Comet Ultra Heavy Duty is built with high-quality materials, including a robust steel frame, which provides superior durability and longevity.
- **Colours:** Multiple shroud colour options
