	S300783	\$399.99		Large
	S305284	\$399.99		X-Large

## PRODUCT DESCRIPTION

The Molift RgoSling Stand-Up Padded Sling is designed to provide pelvic and lumbar support when transitioning to a standing position. The padded support distributes weight evenly, reducing pressure points and enhancing comfort during transfers.

Its anatomically contoured design adapts to each body shape, offering a secure fit and reducing the risk of slippage. Clear labelling helps ensure the correct sling is selected, making it easier for carers to work efficiently and confidently.

It is quick to apply and easy to remove, helping reduce physical strain on carers.

The Molift RgoSling is compatible with the Molift Quick Raiser range of lifters and is made from durable polyester with a high safe working load of up to 300 kg.

### Who it's for

- For clients needing extra pelvic and lumbar support during sit-to-stand transfers.
- For therapists wanting a supportive, padded sling compatible with Molift Quick Raiser lifters.

### Key features

- **Padded pelvic and lumbar support** – improves comfort and stability during transfers
- **Anatomical design** – adapts to individual body shapes for a secure fit
- **Clear sling labelling** – helps carers identify correct sling size and style quickly
- **Quick to apply and remove** – supports efficient, low-strain carer use
- **Ideal for sit-to-stand tasks** – including toileting and functional standing exercises
- **Compatible with Molift Quick Raiser lifts** – ensures system consistency
- **Durable polyester material** – offers easy care and long-term use
- **High safe working load** – supports up to 300 kg
