PRODUCT DESCRIPTION

Royale Mayfair Luxury Leather (Twin Motor)

The Mayfair luxury recliner lift chair features Backup Power Supply for user peace of mind.

The Mayfair luxury electric lift chair offers unbelievable value with its 2 Year Manufacturer's warranty on the frame integrity, workmanship and electronics.

[ILS Mayfair Lift Chair Comparison](#)

Single vs twin vs quad motor lift chairs - what's the difference?

All ILS lift chairs have a lifting action, to support the user to stand from a seated position.

- Single motor chairs move the back rest and leg rest at the same time.
- Twin motor chairs allow the backrest and leg rest to move independently of each other, typically allowing for a greater degree of leg elevation and greater degree of recline compared to a standard single motor chair.
- Quad motor chairs allow independent movement of headrest, lumbar, backrest and footrest allowing for the greatest level of re-positioning of all chairs.
