## PRODUCT DESCRIPTION

The Signature Mayfair recliner lift chair features the option of a unique Wall-Saving *Spacesaver technology* to allow positioning of the chair to be just 10cm away from the back wall without coming into contact.

Infinite Position Dual Motors are also available on the **Signature Mayfair Lift Chair**.

The Signature Mayfair recliner lift chair features a very comfortable 3 Section *Waterfall* Backrest Design for Optimum Comfort and Upper, Middle and Lower back support.

Quality foam and no sag springs provide supreme postural support.

Featuring quality branded actuators and American branded mechanisms means quiet motors for a smooth & discreet operation

The Mayfair Signature recliner lift chair features Backup Power Supply for user peace of mind.

The Mayfair Signature electric lift chair offers unbelievable value with its 2 Year Manufacturer's warranty on the frame integrity, workmanship and electronics.

### **Single vs twin vs quad motor lift chairs - what's the difference?**

All ILS lift chairs have a lifting action, to support the user to stand from a seated position.

- Single motor chairs move the back rest and leg rest at the same time.
- Twin motor chairs allow the backrest and leg rest to move independently of each other, typically allowing for a greater degree of leg elevation and greater degree of recline compared to a standard single motor chair.
- Quad motor chairs allow independent movement of headrest, lumbar, backrest and footrest allowing for the greatest level of re-positioning of all chairs.
