## PRODUCT DESCRIPTION

The Icare Memory Foam High Profile Cushion is a versatile seating solution suitable for use in wheelchairs, home chairs or during travel. Its viscoelastic foam core conforms to the body's shape, promoting even weight distribution and reducing pressure on vulnerable areas to help enhance sitting comfort.

The high-density construction ensures consistent support and durability, making it a reliable choice. The cushion includes a washable, zip-off cover that's easy to remove and maintain, promoting hygiene and prolonging the cushion's lifespan.

Lightweight and easy to transport, the Icare Memory Foam High Profile Cushion is a practical solution for those needing added comfort and low pressure relief throughout the day.

### Who it's for

- For clients seeking additional comfort and low pressure relief in wheelchairs, home chairs or during travel.
- For therapists looking for a cost-effective, low-maintenance cushion that supports individuals needing low pressure care seating.

### Key features

- **Viscoelastic high profile foam core** – moulds to body shape for personalised pressure relief
- **High-density construction** – provides consistent support and durability
- **Washable zip-off cover** – supports easy cleaning and hygiene maintenance
- **Lightweight design** – easy to transport and reposition
