PRODUCT DESCRIPTION

The Mobility Scooter Rear Pod/Pannier attaches securely to the rear of most mobility scooters, offering enclosed storage for shopping, personal items or work materials. Its hard-shell construction resists weather and impact, helping to keep belongings safe during travel.

Featuring a hinged lid for convenience and a lock system for security, the pod combines practicality with peace of mind. It's designed for simple installation and universal compatibility with most scooters fitted with a 1 x 1" rear receiver bar.

Who it's for

- For clients using scooters who need secure, weatherproof storage for shopping or personal items.
- For therapists recommending storage solutions that support safe, independent mobility.

Key features

- **Hard-shell construction** – protects belongings from rain and impact
- **Lockable design** – keeps contents safe and secure while travelling
- **Universal fit** – compatible with most scooters with a 1 x 1" rear receiver bar

- **Rear-mounted design** – adds storage without affecting scooter handling
- **Hinged lid** – allows quick and convenient access to stored items
