PRODUCT DESCRIPTION

This quad cane features a small, four-legged base designed to provide additional security while in use. The compact design ensures that the cane does not obstruct the user's step, promoting a natural walking pattern. Equipped with an ergonomic handle, the cane fits comfortably in the user's hand, reducing impact discomfort during extended use. The handle can be easily rotated for left or right-hand use, offering versatility and convenience.

The cane's height can be adjusted to accommodate users of varying heights, ensuring optimal posture support and comfort during use.

Who it's for

- For clients with reduced balance, strength or endurance when walking.
- For therapists prescribing walking aids for greater independence.

Key Features
