PRODUCT DESCRIPTION

The Mobility Scooter & Powerchair USB Charger plugs into the mobility aid's battery system, converting power into a standard USB output for charging smart devices such as phones or tablets. Compact and lightweight, it's easy to carry and use during everyday travel.

Designed for safe and efficient operation, the charger provides consistent power without affecting the scooter or powerchair's performance. It features a universal USB port for flexible compatibility and is a practical accessory for anyone who relies on technology while on the go.

Who it's for

- For clients using scooters or power wheelchairs who want reliable charging for phones or small devices while travelling.
- For therapists recommending accessories that support safety, communication and independence in the community.

Key features

- **Universal USB charging** – works with most devices including phones and tablets
