PRODUCT DESCRIPTION

The Drive Medical Stella Lift Chair (Twin Motor) provides a refined seating solution for those who need assistance transitioning between sitting and standing. Its twin motor functionality allows separate control of the backrest and legrest, offering greater customisation for comfort and posture.
The Stella is upholstered in premium navy leather, which is both durable and easy to clean.
A two-section padded backrest provides targeted lumbar and head support, while the fully padded chaise enhances comfort through the legs and lower body.
Designed for ease of use, the simple handset supports intuitive adjustment. Swivel castors assist with positioning and mobility, and a side pocket provides handy storage.

Who it's for

- For clients who need powered support and individual control over reclining and leg elevation.
- For therapists wanting a twin motor lift chair with durable materials and ergonomic adjustability for their client.

Key features

- **Twin motor lift and recline** – allows independent control of backrest and legrest
- **Premium navy leather upholstery** – durable and easy to wipe clean
