PRODUCT DESCRIPTION

The Sterling S425 is designed to offer reliable performance across everyday settings. It features 12" pneumatic wheels and all-round suspension to manage rough terrain.

Its luxury vinyl seat includes depth and recline adjustments, as well as a swivel base and adjustable armrests and headrest. The unique wig-wag throttle allows control using fingers or thumbs, ideal for those with limited hand function.

It features a bright, efficient LED lighting system, ergonomic tiller and stylish metallic silver finish.

The Sterling S425 includes a seat belt, front basket and two rear-view mirrors as standard.

Who it's for

- For clients needing a comfortable scooter for indoor and outdoor use.
- For therapists recommending a versatile scooter with accessible controls and ergonomic support.

Key features

- **All-round suspension with 12" pneumatic wheels** – supports comfort over uneven surfaces
