PRODUCT DESCRIPTION

The Theorem Seagrove Lift Chair (Quad Motor) blends bold aesthetics with versatile support. Upholstered in a leather-look fabric with detailed stitching, it provides a sleek appearance suitable for home, aged care or commercial settings.

Its quad motor design supports independent positioning of the headrest, lumbar, backrest and legrest.

An integrated wireless charging pad and hidden cup holder add convenience, while rounded armrests and plush padding enhance day-to-day comfort.

A USB hand control and side pockets make this a functional and well-equipped seating solution.

Who it's for

- For clients who want a quad motor recliner with style and integrated lifestyle features.
- For therapists needing a supportive chair that suits both clinical and shared living spaces.

Key features

- **Quad motor design** – enables independent control for tailored support
- **Wireless charging pad** – for convenient device charging without cables
- **Hidden cup holder** – accessible storage with clean aesthetic
- **USB hand control** – intuitive adjustments and built-in charging port
- **Rounded armrests and side pockets** – promote comfort and accessibility
