VARIATIONS

Image	SKU	Price	Description	Motor
	S2436	\$2,099.99		Single
	S2491	\$2,499.99		Twin

PRODUCT DESCRIPTION

Armrests are full length, completely padded and upholstered, and come in a standard range of fabrics, with non-standard fabrics available for an extra fee. The Topform Lift Chair comes with a two-year frame, motor, transformer, and hand control guarantee, as well as a 12-month spring and component warranty. Single motor and Dual motor options are available for purchase.

Single vs twin vs quad motor lift chairs - what's the difference?

All ILS lift chairs have a lifting action, to support the user to stand from a seated position.

- Single motor chairs move the back rest and leg rest at the same time.
- Twin motor chairs allow the backrest and leg rest to move independently of each other, typically allowing for a greater degree of leg elevation and greater degree of recline compared to a standard single motor chair.
- Quad motor chairs allow independent movement of headrest, lumbar, backrest and footrest allowing for the greatest level of re-positioning of all chairs.
