PRODUCT DESCRIPTION

Hero Medical Ultra Light Rollator

The Hero Ultra light Rollator is a streamlined walker that allows you to make the most of an independent life. The ergo form hand-grips are designed to give maximum comfort and safety without affecting the performance of the walker. The new comfort design of the padded seat and a backrest, the Hero Ultra Light Rollator provides comfort, safety and reliability all on one.

The Hero Ultralight Rollator's features include,

- Ergo-form handgrips fit more comfortably and place your hand at a natural angle for comfort and better brake access.
- Accessible brake system.
- Comfort Padded seat and backrest.
- Folds in position for easy storage or transport.
- Soft basket doesn't need to be removed when folding.
- Durable, ultra-light frame enables you to lift or move with minimal effort.
- 6" puncture free wheels are ideal for indoor and outdoor use.
- Reflective piping for added visibility and safety in low light situations.
