	S332096	\$129.99	Long Double	45 cm

PRODUCT DESCRIPTION

The Wonder Sheet Fitted Sheet is a therapeutic bedding solution that makes in-bed movement easier for people with limited mobility. The 90 cm satin panel is positioned under the shoulders, back and hips, allowing easier sliding in bed without lifting or straining.

The design helps reduce the effort and discomfort associated with repositioning, particularly when turning over or pivoting to exit the bed. It's especially beneficial for those experiencing pain, stiffness or reduced strength.

Made from a durable blend of glossy charmeuse satin and a 50/50 cotton/polyester fabric, the sheet is soft to sleep on and easy to maintain. It is available in two fitted depths to suit different mattress sizes.

Who it's for

- For clients who experience difficulty turning or moving in bed.
- For therapists wanting a friction-reducing sheet to support safe in-bed mobility.

Key features

- **90 cm satin panel** – positioned under hips and back to ease sliding and reduce friction
- **Helps with turning, repositioning and bed exits** – supports those with limited mobility or pain
- **Satin and cotton/polyester blend** – balances comfort, durability and ease of care
- **Fitted sheet with depth options** – 35 cm depth for mattresses up to 30 cm; 45 cm depth for mattresses 30-40 cm
