PRODUCT DESCRIPTION

The Days Walking Stick Wrist Strap attaches to most walking stick shafts and provides a secure wrist loop, helping prevent the stick from falling or being dropped.

This easy-to-use strap allows the walking stick to stay within reach at all times – ideal for people who

frequently use their hands or need extra reassurance while moving about. The woven strap is soft yet durable, ensuring lasting comfort and reliability for everyday use.

Who it's for

- For clients using walking sticks who need hands-free convenience or have reduced grip strength.
- For therapists recommending a practical, low-cost solution to help clients maintain access to their walking stick throughout the day.

Key features

- **Prevents accidental drops** – keeps walking stick attached to the wrist, reducing fall risks
 - **Universal fit** – compatible with most walking stick shaft sizes
 - **Tool-free attachment** – quick and easy to fit
 - **Durable woven construction** – designed for daily, long-term use
 - **Comfortable wrist loop** – soft, non-irritating material for all-day wear
