## ASSISTIVE TECHNOLOGY FOR KIDS

### MEETING PAEDIATRIC ASSISTIVE TECHNOLOGY NEEDS: THE 24 HOUR SOLUTION

As therapists we spend a great deal of time prescribing children's wheelchairs and seating systems but often forget about the other hours of the day that our children are out of their chairs. Come join us in this paediatric focused seminar.

- Learn about the benefits of 24 hour postural support.
- Hear from industry experts on topics such as night-time positioning, standing and walking, transportation and leisure activities.
- Get your hands on equipment.
- Learn about how you as therapists can utilise AT equipment to provide optimal support over the full 24 hour period of a child's day.
- Learn how to setup and adjust the equipment so that you can build confidence in prescribing alternative equipment for your clients.

#### REGISTRATION

\$80.00 for the day.  
Morning Tea, Lunch  
and Afternoon Tea  
included.  
Scan the QR code  
to register
