

* Aluminium walkers only

Instructions for use

1. UNFOLDING THE SEAT WALKER

Grab both handles, pull outwards until the frame is half-open. Place both hands on each side of the seat and push downwards until you hear a click. *

* (For Aluminium walkers please unclip the grey safety clip first to unfold)

For Aluminium Walker : To attach the carry bag, locate the black cap at the front end of the seat. Rotate the cap anti-clockwise untill it stops and pull it out. Then, insert the flap located at the top side of the bag into the pole. Put the cap back on and rotate it clockwise to lock it. Follow the same process for both sides.

Safe Work Load for bag is 5kg.

2. BRAKE FUNCTIONALITY

To apply the handbrake pull the brake lever up. To engage the parking brake, press the brake lever down until it locks. To disengage the parking brake, pull the brake lever up.

Grey button for **Aluminium Walker**

Red button for Heavy Duty **Aluminium Walker

To **increase** the height of the seat walker, press the red or grey button located underneath the handle. Keep pressing the button whilst simultaneously pulling the handle upwards until you reach your desired height. Release the button to lock it in place.

To **decrease** the height, press the red or grey button and push the handle downwards to your desired height.

There are **6 levels** of height adjustment. Repeat process for both handles.

** (For Heavy Duty Aluminium Walker first undo the red locking clip to unlock the handles.)

7. CANE HOLDER Carbon Fibre Walker comes with walking stick holder, which consists of 2 attachments that can be clipped onto the frame. Clip the attachment containing 3 holes, above either back wheels. Then clip the smaller attachment on the same side of the frame below the handle bars.

accessory for purchase.)

4. ADJUSTING LENGTH OF THE BACKREST

Press the silver clip located near the front of the handle. Keep pressing the button whilst simultaneously pulling the end of the backrest to adjust. There are 4 levels of adjustment.

* Aluminium walkers only

HER•

For Carbon Fibre Walker : To attach the carry bag, insert the loops at the top of the carry bag to the poles located at the front end of the seat. Apply the velcro straps to secure it to the frame. To remove the bag, undo the velcro straps and pull it out from the poles.

6. FOLDING THE SEAT WALKER

Pull the handle located in the middle of the seat upwards to unlock the frame. Grab both handles and push inwards to fold the seat walker.

* (For Aluminium Walker : Once the walker is folded, clip the grey safety clip onto the seat frame locking the walker in place.)

able as an additional (For Aluminium Walker : Cane holder is ava

Product Care

The seat walker should be regularly cleaned with a clean damp cloth.

Warranty

Hero Medical Outdoor Lite Walker has a 12month warranty from the date of purchase on structural integrity & workmanship.

- During the warranty period, any parts that have become defective due to faulty workmanship or material will be repaired or replaced without charge by a Hero Medical supplier/dealer.
- The warranty excludes components and parts that are subject to reasonable wear and tear. i.e. plastic parts, castors, handgrips
- The warranty excludes faults due to misuse or user error.
- · Unauthorised changes or modifications will forfeit your warranty.
- · If a defect or fault is discovered, the Hero Medical supplier/dealer from where the seat walker was purchased should be contacted.
